Mitchell Introduces a Bill to Dispose of All the Indian Claims.

NO CENSUS OF FARM MORTGAGES

Bill to Repeal the Timber Culture Act-World's Pair Discussion-Grand Army Mon Want More Liberal Pensions

Washington Jan 21—'Oregorian Office, cornor Fourleauth street and Prinsylvania avanue]—Senator Mitchell to day introduced a bill which has been prepared after a good deal of study of Indian claims. It proposes a new method of settlement. The bill authorizes the president to appoint three commissioners to be known as a court of adjudication. They are to draw \$5000 a year salary, and are to be authorized to employ a clerk at \$2000. They are to hold office till 1894 and are to take instimony as a person il and properly injuries received at the hands of the Indians and pale on the justice of he claim for remuncation. They are authorized to employ fite special agents to make investigations, and all claims must be precented within hree years from the creation of the commission or be forever allowed to go by the board.

Representative Hansbrough to day introduced Representative Hansbrough to day introduced a bill to repeal the timber culture laws. It provides that all entries heretofore made may be perfected and that in all entries before January 20 1890 the entrymen may pay the government price per eare for the land entered and receive a patent, on condition that it be shown that an houst effort has been made to obtain the growth of trees on not less than five acres for a period of not less than four years and that there has been a failure to obtain such growth as a result of fire climatic infinence or the condition or infertility of the soft. Contests now pending are to be settled in accordance with the prorisons of the old act, except that it shall not be lawful for the hand to be entred under the timber culture the land to be entured under the timber culture

Bills have been introduced in both houses of congress which propose to give the entes of frederick and Hagorstown Md, \$12,000 and \$30,000 respectively, and the village of Middletown Md \$1000. During, the heat of the late war General Jubal A Early with his division of Confederates as did the comporations and levied the amount named in cash to assist the rebel army It is elaimed that these of less were loyal and that they appealed to the general government for protection but the latter for some reason did not respond. The besides that they appealed to the general government for protection but the latter for some reason did not respond. The besides for the Model's fatter had.

spoud The bills now propose to refund the amount paid.

The special committee on the World's fair had its first meeting this morning springer called up his resolution providing that the house proceed next Thursday he select a site for the fair by bailot and it was discussed for an hour Springer urged the importance of speedy action on the resolution into hold that by its action on the Carnon resolution list week the house had virtually decided that the matter must be sattled as early as possible and that the committee was practically under in structions and was as much bound by them as if they had been formulated. He argued that the house could not move in the matter until it had first settled where the fair was to be held Hut isle declared in favor of immediale selection of a s to by the house and pointed out how delay jeopardires the chances of the fair.

Flower thought the gate fixed for believing in

Flower thought the cate fixed for belieting in

the Springer resolution Thursday max, was a hitle too soon. He suggested that a resolution be reported providing for decode in the house max Monday, one hour and a half to be allowed for the presentation of the claims of each city to be followed by balloting on Tuesday. Frank of Missouri affected a resolution that the Springer resolution providing for balloting by the house next Thursday be referred to a sub-committee of three, with instructions to report at the next committee meeting. After much debate this was adopted and the sub-committee was selected as follows. Chalman Candler and Mesers Etit and Flower.

Representative Morrow was before the house committee on commerce to day to speak upon the long and short haul clause of the litterstate commerce law Morrow presented a report drewn up at a conference of business men in San Francisco last August in which they realt the obstacles intermosed by section four of the interstate commerce law to through business and comilain that competition with the Canadian Pacific rathroad is not possible

Pacific ratifold is not jossible

Sentor ficarst to dry introduced a bill to smead the net relating to the production of fruit brandy. The bill jrovides that any grape brandy removed, in bond may, upon its arrival at the special bonded warehouse, be deposited there upon making such orters filing bonds and giving such other securities as shall be prescribed by the commissioner of internal revenue. It shall be one condition of the warchousing bond covering the spirits that the principal named in the light shall gy the tax and the spirits as specified in the curry, to be paid before withdrawal. The bill also provides that ill brandy made from grapes found ciscwhere than in the distillery or in the branded warehouses not having been removed from it according to law shall be forfailed to the government.

A committee from the Grand Army was before the house committee on invalid pensions to day in the interest of pension legislation. They adv-ated the emactment of a dissublity pension bill and also the passage of a service pension bill

A lore the dispatch it day stated that Farrar a anadian at wapaper min hill be a secretly be ore the ripul lean members of the siste committee on relations with Canada and influenced hem in opposition to the connacretal minor bill norder to force annexation. Sensior Hale said hestory was sensational and absurd. The reality of the committee heart as one in secret essent Senator Diph a rother memory of the committee the story. IN THE STNATE

that there was no hostility on the part of the omititude the project in uiry in the consusting suggestion to college the scape of the consusting the scape of the consustant that the scape of the consustant the consustant that the consustant the consustant that the consustant that the consustant the consustant that th committee was confrosted the the datacr of

putting in such new work as would delay the census, and instead of the sensus being made a clear, distinct and swiftly taken one, it would run over years and years and knoommittee was do slrous to provent that. Hele stated that a great and valuable body of substantial information on the queation was now being obtained by the superintendent of the cents.

Reagan aryued in favor of the bill

Vest spoke of the abnormal depression of the agricultural interests of the country, evidenced by the fact that corn is bringing now to its producers in Missouri and Kap as only from 13 to 14 cents a bushel, and when from 40 to 50 cents, while coal costs them 29 cents a bushel. The farming community had a conviction that leg islation was largely responsible for the existing depression. He was authorized to make the statement that the superintendent had written a letter to his colleague (Cock-cill) that the census supervisors would belong to the republican party, and that preference would be given them in every instance. Underthat slate of the case, who abould blame him if he asked that concress should make it mandatory on the superintendent to give inconnation wish the bill required? He was not willing to trust to the discretion or judgment of the superintendent of the census a duty which ought to be accurately and honestly performed.

Enconer said he belief d Porter entinently

performed said he believ d Porter eminently adapted for the discharge of the duties of his position. He went on to argue that mortgages were not always a sign of distress they often indicated energy and vigor and ambit on and a desire to obtain more property. Finally after further circussion, the bill went over without action tall to nor ow. The squate then passed the senare bill granting to the state of Culifornia 5 per cent of the not proceeds of cash sales of public lands in that state.

state.

This senate joint resolution granting authority for the removal of Apache Endlan prisoners and their families from Alabama to Fort Hill, Ind. T.

was passed

The senate confirmed George H Fisher of Dola ware, as first auditor of the treasury Fisher's nomination had then ning up in the committee on finance for some time because of certain charges but the committee forder unanimously decided that there were no crassons why he should not be confirmed, and so reported to the senate this afternoon with the result noted.

After an executive sassion the senate adjourned

IN THE HOUE

The Present Congress Not Governed by the Luis of the Last
Washington Ja: 21—In the house jesterday just previous to adjournment. Elsand moved that the house adjourn and on a division the speaker declared the motion lost. Bland theroupon demanded tellers and according to the Record this morning the speaker replied. There is no provision for tellers: There was no record of this fact made in the journet and thus morning Bland moved to have the journal amended accordingly. The speaker stated that he had made his reply in their terrogative form and the gentleman from Missouri had that such details were not insert d in the journal. The chair submitted Bland's motion to amend the journal and on a divis on declared the motion lost by a vote of 810 of 810 and the motion to amend the journal and on a divis on declared the motion lost by a vote of 810 of 810 and enauded tellers. The speaker inquire I whether the gentleman from Missouri had direcovered any ground why tellers should be appointed. The chair last night had suggested that he would I ke to have his attention called to any provision regarding tellers. The Present Congress Not Governed by

his attention called to any provision regarding tellurs

Belund said he had demanded tellurs under the general practice of the house, but the speaker declined to entertain the demand for tellurs. It is not at the same moment appealed rom the decision of the chair. The speaker said the appeal come rather late, but he would enter ain it.

A long and heafed debuts then began which lasted three hours. Mills of Tuxas, I reckenridge of Arkanass Blound Georgia, McMillen of Ten messes and others argued that a veft by tollers was as much a part of parliamentary law as a motion to adjourn Mills said it was the only vote by which the house could corre ta decision of the speaker, and if the house did not have the right to this vote the speaker became a mercar. When the speaker became a mercar. When the speaker became a mercar When the speaker became a mercar. When the speaker became a mercar when the speaker became a mercar when the speaker became a mercar. When the speaker became a mercar when the speaker and the speaker

others upheld the chair

Carlisle inquired what redress a member had carinar inquirtal what recreas a member had against a wrong court by the speaker if he could not have the year and nays. The house, in the absence of conventional, rules as ablished by their was to be governed by general pathamentary law as modified by the rules heretofore prevail.

In submitting the appeal to the house the spenker said

The chair has always been unable to see how it is possible for a house which has passed out of existence to hind by rules and regulations a house which comes lute cristence in the future Recent deals one by the speaker have been to the effect that the rules of the last house did not homome the rules of the present house directly. The chair is unable to see hot they can become the rules of the present house indirectly. The very fact that they have been made as rules shows (learly the necessity of special emaginent. If fact that they have been made as rules shows clearly the necessity of special enactment. If they became by indirection rules of the next bouse it would not become necessary to remain the committee. The suggistion which has been made that the nation's nucleon control of the speaker is at this very moment receiving a rightly became or appeal is pending in this de o as it has been in many others. All decisions from the chair which are made under proper circumstances and in good aftit are subject to revision by a majority of the house consequently there a not, and cannot be any arbitrary courtoof this body against its will. The present occupant of the chair has frequently ordered tellers since the beginning of this session and is not unwilling to do so but the question has now come up as a question of right, and whatever the personal what has of the occupant of the other might be he is obliged to decide in accordance with what he regards as unmistakable parlishmentary law. A decision must be made on the supposition that the nur elected to preside must be an houset official honesity performing his dutits.

int. supposition that the numerical to preside must be an honest official honesity performing his duties.

It has been suggested also that the speaker may on the the question of a dering the yeas and nava miscount and i fellers can be ordered that miscount may be breected, but it is necessary in order to have tallow to have one fith of a quorum demanding them and inder the rule of the last house the speaker must commit that one-fifth i filmately it crefore, the speaker is the counting others and in the counting officer. In the count that one-fifth i filmately it crefore, the speaker is the counting officer. In the last house finding partiamed are last to be set to be finding partiamed any law to be as I conceive it to be, that a livision may be had whereby the speaker may rake a count. First by the sound of the voice, and second, by members arising in their sents and that his record may be corrected under the constitutional right by yeas and mays I have been competied to make the decision I hat made.

Cannon moved to lay the appeal on the table wills raised a point of order that parliamentary law recognized no such motion. The speaker overruled the point of order that parliamentary law recognized no such motion. The speaker overruled the point of order that parliamentary law recognized no such motion. The speaker overruled the point of order that parliamentary has recognized no such motion. The speaker overruled the point of order that parliamentary has recommended to Texas offered a recolution directing the co-amuste, on judiciary to report within a cell witcher the late screent at arms, was a

THE FOES OF BOODLE

Conclusive Evidence Against the Society Organizers.

A REPORTER OVERHEARD THE PLOT

Only a Combination to Harry Up the Slow House, They Explain.

THE SENATE AGAIN KILLING TIME

Squator Squire Made More Promises Than He Can Koop-Clerk Onno Becomes Quito Tidy

Oth it is Jan 2.—[Spec'al Telegram J—Reproresentatives Mouliray and Cool were looked in
pushing the filvestigation of the story published
in The Outdon's Tacema Globe and Scattle
Journal to the effect that they were the promoters
of a plan, to org take an anti boodle society it
recalls the old story of the man who was charged
with murder and had virtually proved his muocence, but further to establish his invocence, but further to establish his invocence demanded that a certain old woman
be called to the witness stand. The
woman happened to know all about
the crime and gare evidence that gent him to the
gallows. The evidence addinged at to-night's
meeting of the house committee, appointed to investigate the watter corroborated the story of it.
Secott, correspondent of the Scattle Journ's, who
overheard their conversation to the officet that
they were taking a seps to form a society to look
up victous legislation an I fight it. It is showed that
they considered it devolved on them to form a
vigilance committee to watch over their brother
inembers, who they surpected would rige the
jeassage of victous legislation Representative
Judson, of Pierce, in detailing the conversation
he had with Cook brought out this fact and substantiated Scott's story
Toward the class Representative Grant made
Youltray and Cook uneasy by repenting what
Representative Eady had said, to the effect that
he had been saked to join an anti boodle seciety,
heldy a testimony is looked forward to with in-

heldy a testimony is looked forward to with in-terest. See toold his story in a straightforward and un-effected way. Moultray was nervous during the string and made a fool of himself before he took the stand. Cook was composed. Cook and Moultray denied Snott's story, so the whole matter has resolved i'self lifto a question of veracity be-tween the two men jointly accused and the re-porter who overheard their conversation with corrosorating circum stances in Scotts fayor.

Another strong point against Moultray and Cook is that their story that they were organizing to expedice business, and Judson's repetition of what Cook said, to the effect that they wanted to

to expedice business, and Judson's repetition of what Cook said, to the effect that they wanted to form a society to guard against vicious legislation do not harmonize.

H S Soott correspondent of the Scattle Journal, was the first witness. His festimony was as follows. Last Wednesday evening, after the meebing of the committee on roads and highways, of which I am clera, I sat in the committee room writing reports for my paper. While I was there Moultray and Cook came into the room and sat at the other end of the table. They began taiking, and I heard Cooks say that each member of the proposed society and piedged himself to watch all crooked bills. I am positive of the words Cook read off alts of the members, and Moultray saked how the society was to be supported. Cook answered, by individual subscription, and Moultray was in favor of hiting a room for the society. Moultray thought the society would have thirteen members, and Cook placed the number at thirty. Cook and Moultray such made lists of the members they would see now day, and it was decided to hold a cancer sent evening."

"What was your idea of the purpose of this society? "asked Ostrandor."

'Yo watch all crooked bills and to effect honest legislation.

'What was your impression of the nature of the

legislation '
What was your impression of the nature of the

soc ett? asked Grant.

'That it was to be an anti boodle society," —
Ecoit was asked to give the names of members who were sure to join the society, as he gathered from the contersation. He named Cook, Dean, Eddy, Edons Farrish, Gilchrist, Grubb, Hughes, Judson of Whatcom, Judson of Pierre, Kennedy, Minkler, Mouliray, Pardy, Randall and Shaw, Scott went on to say that Hutchisson and Pick-

that he was convinced from what he heard that Cook and Moultray were trying to form an antiboodle society
Did you infer from what you heard that those
who were not on the list were considered susceptible to corruption? 'asked Ostrander

Scott went on to say that Hutchinson and Pick-rell were put on the list of doubtfuls. He added

ible to corruption? 'asked Ostrander No.'

No.'

Did you infor from what you heard that any me uber not on the list was opposed to honest legislation?' queried Edens.

'No but I heard Cool say that the object of the society was to effect honest legislation?'

Scott concluded his testimony by repenting a conversation he had with Representative Judson, of Whatcom at Tacomia on Sunday Judson was quoted as saying "Scott, I know what you said to be true. I had a talk with a certain party and told him bu was a d—d fob! to have anything to do with the anti-boodle society. The object of the society is to prevent victors legislation.'

Thomas H Boyd correspondent of the Tacoma Globe and H. E. R.ed, correspondent of The Observation of the distribution of the control of the control of the society at the new from Scott after having overheard the conversation between Cool and Youltray, and of investigating it before us gift.

Cook and Monitray, and of investigating it before in mg if.

Munitray before taking the eath delayed the proceedings by an explanation to the effect that it was the province of the committee to find out if there were any numbers suscentible to britter out the committee to have of no members who had come here looking for a sack, and he knew nothing of the formation. members who had come here looking for a sack, and he knew nothing of the formation of an anti boodle society. He wanted the committee to understand that what he was to say was voluntary evidence, else he would not give it. He said he conversation between himself and Cook was for the purpose of expediting wholes mo legislation, and the names mentioned and overheard by Scott were those who would be likely to join the society. He said nothing was said that was discuspecify I of any member. In call ang off these names was thore any implication upon other members who were not on the list? saked Gran

No Noutray denied that it was the intention to form an anti-bondle society. He said also that Scott denicd having furnished anything about the society to the reporters who wrote the Hem. Moultray said he Irad heard that 1500 had been or would be raised to make it appear that he was in the anti-boodle society movement, and that Representive Browne of Pierce had promised to subscribe half of the amount. He could not rumber to be hid of the prompt her thought of the programming the form sating this of Representative Herren saving this

of Representative Herron saying this
Representative Gook was the next witness. He
curerated what Mealtray had middle some respects. He said the efforts of himself and Monitary were for the exped time of business, and
added that not a word passed between there but
could be used on the foot of it chouse. He had
not heard on it ingleted up to show that an
not boodle society was necessary. Cook said
that largered after Herren told hum that money
had been placed to suit the anti-bondle society to
the of the unit me of would be forthcoming if
necessary.

their their and more would be forthcoming if necessary. It is easily true Judson of Pierce, and a member of the house had talked with him about the property of the house had it was in ten of to forming a society of some kind but there was no boolie in 25.7% and that was in ten of to forming a society of some kind but there was no boolie in 25.7% and that was to the trop ters had printend Kansas City, Mossylugha had heard of the URPLUS, - \$1,700,000 was correct in collects Improved Farin and City he had heard but it was ron. Washington and Idaho but the was ron. Washington and Idaho but it was ron. Washington and Idaho had been of the Manager for Facilie Coast. To many for the property of the sand Building Fortland, Un.

shout willing up amanti boodle society?" asked That is the same question I have objected to

all slong and Ostrander and that Jelsoń know something which he was demelled to tell for some reason. Several efforts we a made to draw it out of him but he would not talk, explaining that he learned it in a private conversation which he thought neither the committee nor the house had a right to probe into. He said the member of the house who had do to the most present and it that member would remove the embargo of secrecy he would tell it. Finally Cook agreed to let him tells and Judson said.

if that member would remove the embarge of secrecy he would tell. Finally, Cook agreed to let him tolk and Judson said

Last Wednesday night Mr Cook came to me and said that the session was moving along slow ly, and some of the members had been discussing the advisability of organizing a society to expedite business and soe that no vicious legislation was enacted. Things are running looss now be said, and there is no head or tall to anything, and we think it best to organize a society of this kind. This society was to be secret and the proposition was to make me chairman of the excentive committee or some such thing. There was to be no political line drawn. I told Mr Gook that I did not consider the plan practicable and as for keeping It secret I did not see that it could be done. I was right on the last proposition, for within fifteen minutes the reporters were on the track of the proposed society. I will say that so

Representative Herron was sent for and denied He had no knowledge of any money being ised to influence the anti bondle investigation Representative Judson of Whatcom denied tha he was the prime mover in the organization of the anti-boodie society and that he had told Scot anything at Theorem beyond that there was an

effort to organize a society

Before the meeting adjourned Grant told the
committee that he had heard Representative
Eddy tell a knot of house members that there was
a movement on foot to organize an anni boodle
society, and that he had been asked to p u it
The committee then adjourned subject to the call of the chairman, with the understanding that Lddy would be called on to tertify Senator Prapus will also be summoned before the commi-tee He is the Western Washington legislator

It is conceded by many of the legislators that Senator Squire is making a final political mistake in not urging Judge Calkins of facoma for the United States judgeship. If Calkins does not get the place he will be a candidate for the United States senatorship against Squire next winter. Squire of course will have the advantage of being in effice but Calkins will give him a close race. Pierce county will put in a strong claim for recognition. Walter J. Thompson, who was a candidate against Squire told a reporter the other day that he would be in the ring again Hanford is Senator. Allen a candidate. The fact state Squire has made too many possibles positions. is that Saulre has made too many promises polit is that Squire has made too-many promiter pulli ical and, personal and has kept none. He prom-ised to support T J Humes 'of Seattle for the judgeship but has failed to keep his word Humes did all be could to bring about Ferry s-pomina ion for governor and Sputre sele tion as senator in consideration of the judgeship

Jemes Fifzpatrick, a convict in the Walla Walla ponifentiary has written to Senator Van Houten arging has to favor a bill conditionally pardon ing such convicts as are supposed to be deserving of clemency Fitzpatrick says Van Houten in doing this, would gain the infinite gratifude and heartfelt thanks of each and every unfortunate No doubt he would

A Tangma paper to-day hauled Chief Clerk Cline of the house over the coals for running ground the state-house without a collar or neck The chief clerk read the reasting when he got up this morning and came to the house wear ing a collar and necktie and a very sour countenance for the reporter who wrote the item. The reporter had taught him manners

The house to day passed the Rush konnedy bill, requiring rultroads to be fenced. It is a local option law, enforcement of the law being left to county commissioners. Section 3 contains a provise that fullure of court commissioners shall not exempt realroad companies from liability for killfing stock. There was no opposition to the bill which it is believed will be fulled in the sense, which has siready pussed chator Austin's bill for the same purpose. bili for the same purpose

The house to day refused to pass Thompson of Walla Walla's memorial instructing Washington's congressional delegation to vote for Chicago for the world's fair Grant, Hurren and Power spoke in favor at jegying the matter to the judgment of the delegation

The house to day refused to concur in the sen ste amendments to Megler's commissioners of deeds bill and the speaker appointed Lyans Megler and Pickrell as a conference committee

was passed

All the important bills before the senate had
been made special orders for next week to await
the return of the tide land junketing party, and

By Rush and Lennedy-Requiring railroads to By final and kennery-acquires, railroads to fenced passed

By Bird--brobibly in the appointment as depuly shortis marshais or policeness of persons who have not bread in the state one year and in the country inner yangs, and probibling importation of detectives passed

By the con mittee on Indian affairs-Making it unlawful to hunt deer with dogs and to kill large gam, for their bides propiding that game shall be killed for the market only during December, passed

# THE TIDLLAND JUNKLIPES Views of Diverse Interests Presented in

comu-A lain to Scattle met at the Tacoma hotel this morning to hear the opinions of interested citizens on the subject of There was a large attendance Aller C Misson belson literact Louis D campbell He S Hisson Roberts linguate and J H Mitchell presented their views at considerable length. With the exception of Nelson Bennett, the gentle men were generally of the opinion that the upland owner had an equitable interact in the title lands against which his land abuts and should have the first right of purchase but the whole matter abould be so arrange i as to give a chance for an adjustment between the upland owner and the person who has improved the tide land in good faith that one may buy of the other if he wishes, I itigation in regard to the tide lands should be avoided if possible, else the delay in sectlement of disputes will prove a set back in the development and growth of the state. The state should sell the tide lands and not attempt to build owner has the right of descence over them, but own wharvest the could not understand how the state has any right to the tide lands if the upland owner has the right of descence over them, but in the could not the late. He lavored editing them to the real occupants at a minimum rate. He thought there were over \$1000 000 worth of the high bluff along the shores rail roads must build provide and in the vicinity of facours. It was urged that railroad building on the I acide coast was his infune, On account of the high bluff along the shores rail roads must build pracks out everthed tide finits and the question should be settled intrailroad san acquire the necessary trace room they felter and the whole C Muson belson Bennett Louis D campbell H S Huson Robert Bingate and J H Mitchell pre

should be so settled that railroads can acquire the increasary trace room they need 3 he wise the growth and develor mens of cities and the whole state will be retarded. If the upland awards were given the first right of purchase they must complete within one year otherwise the title flag attraction and have the eight to purchase in the alternoow, the committee accepted it e in vitation of Cuptain. John k. Burns on behalf of the Commencement Tank. I. and and thyporement Company and took a Chylp in a steam I un h to be tide flats. The cort junities has visel for years hardoor, Abardeen, Considerable where they will steed to morrow. The control of the tracking for Sealile where they will steed to morrow. The control of the proceed to the time, ham bey and Post Townmend, They expect to geach Olympia by the first of pax week.

I ussian Schooner and a Scaling Vessel Lest, With More Than Thirty Merban I hancisco Jan 21 — Impaneso advic a by he steamer Ode mr to day give an account of the steamer Ode mr to day give an account of the wreck of the ofter-builing achoore Rose be louging to R. Churt. The lokahama, a Ru slam government schooner seried the Rose about the end of October near Robin Island for pone mag and putting a prize crew of one officer and five men aboard statted her to Vladivostock. Dring the night the Rose went ashore near Ragbalsen and became a tight wreck. A boat containing one Russian as hor and seven of the crew of the Rose was picked up and the government set oner again attarted for Vildivostock. Failing to each there fears were cutertained for hor aslety and later when the report was received that a scuoner hal been weeked cover Lape Socy and all hands drowned and that a body w shed astore was drossed and latter do by the state of the sound of the Russian salions it was confered the government schooner had been weeky usen dogsther or w of three officers and from the wreck of the Rose that all perished together.

CAL FORNIA TRAIN BELD UI

Skillful Robbers Plunder the Express Carofa I ussenger Train

Tolane Cal Jan 21—18 pecial Telegram ]—
About 4 o clock this morally a passenger train from San Francisco to Los Angeles was rebbed about 8 miles north of here by masked men. At that hour it was derk and the passengers were asleep I wo men who had not been notice a in the darkness spring on the forward platfor in the darkness spring on the train was leving Coshen Before the train was ladily started they climbed over the train was fairly started they climbed over the train was fairly started they climbed over the trains and interference, was when the engineer and freman found thems lives exceed with shotgurs. The men wore black make and their faces could not be seen. They acted with the utmost coolness and showed hem salves to be old hands at the business.

They took their places on the homofilive acep ing the engineer and freman under watch a line time and told them the tolin must be stopped when they gave orders. The train was run shead until it had gone nearly four miles, when an order to stop it was given. Engineer 2 Decleat one obeyed the order and brought the time to a stands it.

wins wrong but when it came to a stop mile at my from the nearest station the bakemen mup pet of and rein for with the following following the following follo set them down and return to his train. The train then came as as any nossible to this place. As soon as the alarm was given here a special train colation ng a posse of armed men was sent to the secon. Of the robbery and the whole they are the same men who the possess of armed men was at the price several menths ago committed in exactly the same way, and the my pearance of the men as far as could be seen, corresponds with that of the train was considered that robbers and yet known but it is thought it is several thousand dollars as they made a clean sweep for valuables. HALF THE HERDS LOST

Fitality Among Sheep and Cattle on the Blatted Plains of Novada

San Francisco Jan 21.—[Special Telegram ]—
Gattle and sheep men who own large herds and locks in Novada and idade are receiving discouraging reports concerning the condition of their stock All over the Control and Northern portions of Novada and every part of Idaho the snow and cold are killing thousands of head of an male Cattle and sheep were poorly prepared at the opening of the winter for any storm such as they have now experienced. They were cancillated through lack of pasturage and water in nearly overy part of Novada and the severe storms came on just to time to complete the destruction which the drouth had begin.

The total loss is expected to be had of the entire herds that were in existence the opening of the winter. A large cattle owner who lives in this city but has extensive stell interests in Novada stand to day that it is probable 60 per cent of the entire and eight per cent of the sheep will be lost before the winter is over the backet and the per cent of the sheep will be lost before the winter is over the lost per cent.

# ELECTRICITY IS THE LIFE

When properly applied and thoroughly disused in the human system, but this when
arthonally applied must be done under the
direction and able guidance of those who
are by practice experienced in its use ind
applicability to the various diseases incident
to nature, and with a careful provision as to
the constitutional condition of the patient
Hence the wonderful success Dr Darym has
over disease with the use of electricity and
med cine, as the following almost miracu
lous cures will show. If they were not peo
ple well known in this community it would
be hard to believe such cures possible
Geo Smith, Astoria dealness cured

The relief and work train which left Rejding

The relief and work train which left. Re iding posterday was struck by a silfed twelve hiles south of Sims. The slide covered up three ears and is delaying the train considerably. It is expected that a passenger train will be able returning to reach Redding by Wednesday night. The snow plow working south from Dunamuir is still stuck four miles south of there also one that same distance north. Under fair conditions that part of the read between Rims and 8 soons will be cleared inside of three days. Between Sissons and Edgewood nothing has been done as yet to clear if. It will precedily

take two or tree days to put it in shape has trestic is broken down and cannot be gotton at until the plow clears the track. The weather along the road is generally milder this morning. Fears are extertained that in case rain of any magnitude sets in very serious washouts will regard in the Dausmur and Daita district. Sing Cal, Jan 21—The north bound train of the 15th returned here last eventing from two miles north, where it was stuck, with the engine off the track. The road is now clear about four miles north. The work train with men and provisions, that was stopped here last veck, pushed ahead this morning, to the front. A work train from the south is stuck south of Doita. As soon as it reaches here passenger trains will return to Redding. It seems now as lift will take several days to do that. The ploy and engines from Dungmuity are stuck four miles four of that place. The weather is clear and fin this morning. ANOTHER STORM THREATENED .

from there. From 15 blockeded near bin's for seven days will be brought back to Sims to-morrow. It cannot be taken to Duns nuir Another place is bucking snew at Edgewood be tween which place and here there is five to ten feet of snow. A failing tree broke it a scouth frestle south of Edgewood. It was e ear and warm to day the first time for two weeks. There is a south wind and clouds to night, threat-ning a renewal of the storm. MAY BE OFFN TRUBEDAY

will be forwarded to-morrow by the steamsh p Co

She Arrives From Asia and Tek a a Speaul Train f r New York

EAN FRANCISCO, Jun 21—A report was tele
graphed to the Merchant's Exchange at 70 lock
this morning that the steamer Oceanic had been
sighted six miles out at sea. Upon receipto this
information the tug Millen Griffith which had
been chartered by representatives of the New
York Horid to take off Muss Neille Bly who

entered the Golden Gate a little after 8 o clock, and a few moments later Miss B; was tal n off on the tug while her follow passengers on the steamer gave her a parting cheer. The tug followed in the wake of the Oceanic as far a Coatishad, at d then turied off towards the Oakland wharf where the young lady was ladded about 9 o clock. She boarded a special train, which was low waiting for her and a few munutes line was speeding away on the last stage of her journey.

Frence Cal. Jan. 21—[Special Telegram.]—The train bearing Nallio Bly strived this ufternoon. A large crowd assembled at the deput to meet her, A large basket of fruit and win was presented to Miss Bly. To a press representative she said steaking of her trip around the world. I was not a bit sick not even sea sick, and it was just storms storms all the time on the ocean from first to lare, and yet I enjoyed myself ever so much. It added zest to things and broke the monotony of six ther wise dull royage. As to traveling accommodations on the continent the railroads were hirrid, their best cars not being equal to second class American conclus. Across A'sai t was plus sait, but it was not until I entered this coach on , mer ream soil that I was able to eipo anything like conifort.

I have lost fifteen days so far on the run

Contors.

There lost fifteen days so far on the run caused principally by missing connections but it am not sory for it, for had it not been for that I should have seen nothing at all. If there is no further delay I shall get into New York Saturday night or early Sunday marning. Danyen Jan 21 -F B Semple passenger igent

LADY OF THE HOUSE — Do you still like our Charter Oak Store as well as when he first got it, M 1/2

Servant—Oh. every bit as well, Maram
LADY OF THE HOUSE—Is mell, Maram
LADY OF THE HOUSE—Is me expecting a friend to take dinner with us next week on purpose to show her how nice our store cooks everything, and I want you to baye a nice dinner for us.

Servant—Indeed I will, Ma am. There's no trouble to cook if which that store. The wire Gause Oven Doors makes it so much easier than other stores it have been used to, have been used to have or the Bouss—why, how do you explain it?

Servant—Well, I don't have to watch everything so close for fear it will bith. You know how careful you have to be with a bake of a stard, it is so apt to burn on top before it is baked through. The Charter Oak bakes it perfectly without any danger of burning. And then in reasting a turker, I don't have to keep busting it every five minutes. It rouse, and then in without it and without drying it up like the tight ovens do And you know over crisp the blemits are without being hard and tough. You always prailsed my biseuits, but it was the the wire gause even door know they wouldn't be near as nice. I hope I'll never have to cook anywhere again, here they haven't got a Charter Oak stove organing.

C. O. MADANTZ, Desier in Stoves and Hardware, Portland, Oreg. Carries a full line of the Charter Oak Cook Stokes and Heaters. Dealers can save EXCELSIOR MFG. CO., ST. LOUIS, MO.

# SEWERAGE COMMISSION.

Full Text of the Report Submitted to the East Side Council

A History in Brief of the Action of the Committee-Concerning the Preparing of Plang-Recommendations

The following is the full text of the report of the sewerage committee an amitted to the East Porlland council at the regular meet ing of that body held Monday night and mention of which was made in yesterday's

what is expected in the way of drimage, spec hections report and system adopted and further on in his communication states that for a general report and specific tions his charge would be from \$50 to \$500, is sunning that the area to be servered did not exceed two or threels unre miles provided also he was furnished at the fire necessary data. It will thus be seen that his proposition was somewhat indefinite.

Mr. Hering in his communication stated to the holy one andertook to recommend a system and nurmshiplans etc. without having examined the locality to be sewered and while in the locality to be sewered and while in the locality to be sewered and while in the locality to proper data, he would prepare plus and his

purpose of preparing for it a system and you committee made urrangements with him, by which he returned East by wife of this city. He stopped over and made a thorough examination of the city, after which your committee hid an extended in terview with him, and obtained his views as to the proper system for the cit, to idea! terview with him, and obtained his views as to the proper system for the, city to adopt His charge for stopping over and making such extramation was \$ 600 whereas if he had made a special trip for that purpose his charge would have seen from \$500 to \$1000 Mr Hering stated that his charge for preparing plans specifications, etc. of a proper system of sewerage for the entre city would be \$1500 When he stated in his first communication that he could probably prepire plans for

completed sanitary engineer of extensive experience and has the advantage of having made a personal examination of the citi, we think it would be economy to employ him to prepare plant specifications etc. Therefore, we recommend that the necessary amount be appropriated for currying out the same.

FEDERATED TRADES ASSEMBLY Various Questions for tue I wmakers' Consider

At the meeting of the legrated Trules Assembly, held lest night at the G P R had unerely no quorum for the transaction of business which requires a representation from a mulority of the labor organizations forming the federation Date gates from the Carpenters Philippes in lors and frinters Unione were present. Light unions were not represented

gates from the Carpeniers I sinters. In lors and ir inters Unions were present. Light un one were not expresented. A uniforgal meeting was called to order and a resolution of sympathy at the Bricksayers. Union of Seattle was adoped and horing that they would be successful in stablishing an eight hour work day.

The instralian system of colvictaboring considered with the futo industry was also cous dered with the futo industry was also cous dered with the holes and that while he was in favo? of convict labor he was not in invor of a system of convict labor he was not in invor of a system of convict labor he was not in invor of a system of convict labor he was not in invor of a system of much as now prevails. Hod outneed the hirling out of convict by the day and to do work that reduced the wages and shut off the employment of mechanics. If the work was done by the state and the farmers and not contractors received the benefit and it it hirly mo hardship of any class of labor he was in favor of a juste and any class of labor he was in favor of a juste and any class of labor he was in favor of a juste and this way. He thought life unions should give the matter consideration and come to an under standing as to want was lest life order to shape legislation. If find I galer derece and I arther supported lif able sylver.

E. J. Hyland Called the attention of the unions to the act on of the city consell in the matter of free framely see for street relivery. He gave a matter of and in deep three matter of the union and in the other and I make a promise of the assembly. F. I living and Junes A. Power wore appointed to attent the next meeting of the connect and to be shown who was responsible.

I etters from Tacoma Trad. S. Connect and from the Brotherhool of a prome and 1 and 2 an

Tybke 11 Lender Sol II Abrithams (har es abrah mr., Sol1 nedesthal One frature of the session with be the consider attent of the proposition to a tablish a school for mappal training, in which all awadhaniesh trid s and professions can be laught free of charge to members of the association especially to the rising Jewish generation. The plantons advance that probably this is a more at this but the first probably this is a more at the probably the first of the first probably the first of the first more of the deed and the orphan. The election of offs or will occur at this time and an effort will be made to secure expresentation from fregon in the Lee united by Some of the deleft can started down on the Southern Proble, and are somewhat dibot is about getting, through A good in any will take passage on the [State of a historial a morrow in ght. All the belegates de tare expected to be present at the grand lodge session.

OLD NEPTUME ON A TRAR-

How the Co an Raved and Possed Around Tills-

At the office of Major Hamilbury United States engineer is to be seen a dornick of baselt weighing sixty two pounds which was brought up from Tiliamook light by Mr McClure lampist

weighing sixty two pounds witten was brought up from Tilhamock light by Mr vict.lur. lampist of this district. He reports that a most fearful from whe experienced at the rock last Wednet day, and that the dorneck was thrown up by the force of the wares and fell on the roof of the light keeper's house 140 feet above the roof of the light ing a hole in the roof. The wares were un high that the water came down the clummey of the boller house of the fog sinu hi to re that and poured out through the tubes of the boser. The chimney is about 120 feet above can level.

I he spray unfered the cowl of the chimney over the lamp which is 190 feet above sea level and ran in streams to the bottom of the building. A panel of from fonce in ar the light was event away by the waves. One of the keepers was up in the lighthouse when the thone was thrown on the roof of the light A deper's house and how the robling of the location of the sea, down where folling a did, buttom of the sea, down where folling the house in the sea, down where the sprays that these who live in lighthouses should not cast atomes.

# The Oregonian. PORTLAND. WEDNEYDAY, JAN. 23

A HOPELLISLY DEGRADED ELE-MENT

The bruial element that was imported a few years ago from Hungary to inbor in the coal nines of Pennsylvania made a characteristic displiy at a cemetery near Wilkesbaire a few days ago A funeral furnished the opportunity for a root between contend the claments between to be Polysh, church ing elements belonging to a Polish church one faction being desirous of burying the boly of one of its dead members in the cemetery and the other opposing this desire with partols clubs and stones. The corpse though necessariy a non-combatant manupusty institute about during the irry, andwould have been left unburied upon the cloody field had not the constabulary of the place intervened to save the world a

The sympathy of quiet, orderly decent eople everywhere is with the self respecting abovers who objected to the importation of this element by corporations and its settle ment in the coal mining districts. The fu tility of the attempt to impress such people with the ordinary decencies of life is so up parent that the missionary who accepts without hesitation a call? to China or limitoostan would shrink back appalled from an appointment to labor among trees brutal and degraded heuthen in our midst Cartainly the law probib ting the important of the cartainly the law probib ting the important tion of contract lat of was one of the crying needs of our civiliz non and it would have been to the cred t of the nation's law makers

if the cry had been heeded earlier
Suff respecting 1 there has a right to object
to a class of foreign labor that has no appredat on of the home element in life, that lives in dincy how is, herds together like an imals, and, aspiring to nothing better is content with the wages that suffice to keep base life aloot under circumstances word of all of the refinements and comforts that wait upon civilized life

Herein luy the most intelligent and well upon the Pacific coast which followed the Burlingame treaty Undestruble as was the excess of this class of population here there is nothing of the brutatty and viciousness among the Chinese that are characteristic of the benighted Hungarians who swarm some portions of the coal regions of Penosylvania and shock the world about them with orgies over their dead, disgraceful Christmas revels and savage riots upon the occasion of weddings and funerals. Echoes that come from the localities where these laborer. an asylum of the low.y and oppressed of all other lands was violently overstrained when it bade welcome to the degraded Hungarians and others who have found lodgment in an important industrial section of the country

# OUR NATIONAL GUARD

General Sighn of the Oregon National Guard anticipates that congress will increase the annual appropriation for the support of the national militia from \$400 000 to \$1 000 000 and will provide the Pacific coast states less than \$20 000 per annum This is in line with the recommendation of Adjutant-General Kelton in his recent an nual report. General Kelton favors the enrollment of at least 150 000 men instead of ROOM at present, he would have all arms of the service represented in the milita. Wherever there are government army posts General Kelton would have army officers detailed to instruct the militia encampments in the drill of all arms of the service, and in the care of sea coast batteries the militia should be allowed to visit the fortificat ons and remain under instruction for at least two weeks of every year

An increase of the present appropriation to a million of dollars would enable the government to curoit, driff and discipline a body of 150 000 million that would form a very effective fighting force in event of war Of course such a force would not be add outset to the emergency of a long war but it would be sufficient to man our sea coast batteres and add anticlent strength to our regular arm of 25 000 men to repel any as sault upon our Canadian frontier until the nation could be organized into a vast army behind the curtain of our regular army and our national guard. During our civil war over 80,000 troops were enlisted, organized armed equipped and sent into the field in ices then a month Sixty thousand troops have repeatedly gone into the field within four weeks and on one occasion 90 000 troops were sent into the army within twen ty days. This was done more than a quar ty days This was done more than a quar-ter of a century ago when our railroads were, by comparison few in number and of inferior resources, so far as speed and roll ing stock are concerned. To day with our railroads webbing the whole country from occan to ocean, from the St. Illiwrence and the Likes to the Gulf, we could within thirty days after the declaration of war put 250 000 men as easily into the field in thirty re did 90 000 from five states in twenty days ducing the civil war

No foreign enemy could invade our fron ther with 250 000 men in less than thirty days and with our regular army increased to 50 000 men and supplemented by 150 000 trained militia we could as we hav trained miners we could, as we have said retarnt the advance of the enemy long enough to permit the assembling of a vast army The delli and discipline proposed by General Kelton would be sufficient to create at least 100,000 men who could troops and man our defensive fortifications General Grant in August 1861, urged the war department to disperse our little lar army through our volunteers until the war was over and predicted that at first the Confederates would get their raw masses act up' into soldiers before we did be cause having no regular army to absort cause naving no regular army to absorb their trained in htary talent, the South would disperse it through their volunteers. The course of events justified Grant's pre-diction but the existence of a trained national militia of 150 000 would save us from a repetition of the consequences of this blunder

# BPAZIL

Our congress behaves with becoming caution in the matter of the recognition of Brusil Congress desires to wait and find out whether the inovement in Brusil is really a popular revolution in favor of a repu he or only a military coup de ctat like that executed in Paris by Louis Napo con December 2 1551. The Paris coup de ctat was comber 2 1351 The Paris coup as clai was the work of the army and its first act was to dissolve the national assembly The present anisotive tile mandia assembly The present in intration in Brazil is a military diciatorship casily possible in a vast thinly settled country that has one militar Fonseca and his collegues promise that a constitutional convention shall be held November 15 1899 just By year from the date of Fonseca's successful military coup de état in Rio Janeiro. In the meentime all the national and local organs of legislative and administrative authority. are to remain suspended. The courts too are suspended for the spilitary chiefs announce that all persons accused of resistance or dis aff ction to the government shall be tried by military tribunal. In the province of Para he military dictators have a pointed one of their own creatures governor and the local legs in ure has been dispotyed without day. In the province of Maranham it is reported the authority of he military provisional government was abliahed by a massacre and that 't is re-

udiated by the rich and populous province

Bahm Bruzil at present has no constitu

tion, no national or local legislature, no re sponsible ministers; no regular courts, nothing but a military government and ministery tribunal and this situation we are told is to remain until November 15 1890. It looks very much as if our state cepartment, executive and congress were only prudent in delaying to recognize the present pro-visional government by military usurpa tion of Brazil as a popular revolution in favor of a republic

The pending trouble it the French legislature has arisen under the name and sign of Boulangism which has always included a great many Frenchmen who not only did not care a button about the Roul nager but actually despised and derided h m as a po-litical charlatan Boulangiem 18 standing for the transient con tion of various polit ical factions that desired the overthiow of the noderate republicans was always a great deal stronger than Boulanger who was need at one time as a mere borseblock by men who had they upset it moder to republicans in the last general election would be been prompt to send Boulanger into crie at the first opportunity. To day Boulanger is as dand as possible but the defeated. feated unalcontent opposition to the repub lie still use his name to keep up a fire from bis clique of friends upon the government It was anfortunite for France that the 1st general election in September the republican or anticoretitutional rev sion party d d not obtain a d ic ive ma jordt over the opposition ib day the Oriesnusts the Bonapart set the Foulangists and the Olemenceau radic ils are together strong enough to handicap the government and yet they had nothing in com non at the last general election save a desira to revise or rather completely recast the constitution to their own purposes — Doch faction hoped that with the overthrow of the present con stitution something would arise that would furnish them with a new opportunity of vic So to day Boulangism troubling the legislature and the government of Trance does not mean Boulanger but neerly the old opposition ready to sound any one or all of its war cries to disturb the powers that be

The Oregon weather prophel confronts the oldest inhabitant' trium; hantly for the first time in several wears and enjoys

the first time in several years and enjoys reading aloud dispatches that tell of delayed reading aloud dispatches that tell of delayed trains cattle perishing upon the ranges, enormous snow drifts and bela ed mads. The latter individual nothing daunted, scouts the idea that the present winter weather is unprecedented in the annals of Oregon history and tells of snow four fect on a level in Southern Oregon in 1852 with the mercury close upon zero for we weeks, while ten years later the Willamette valley had a fall of two feet of snow succeeded by a cold snap' that kept it on the ground in many localities for six weeks. The truth in the matter, as every reasonabit, sensible person knows is that Oregon, hough ex remely favored in the matter of climate. his occasionally in common with other sections not so generally favored a winter of unusual severny. While the does not mean anything like a New England winter or a winter such as is common in the Middle West and Northwest either in rigor or dura tood it is severe enough to make it nedessary to provide stock with food and shelter, and to make pretty heavy drains upon the wood pile and coal bin while it lasts In Oregon as elsewhere the prudent man cor siders the possibility of winter weather during some portion of the whiter months at least, and easily prepares to meet it without handship while those who live from hand to mouth depending upon climate rather tann upon intelligent exertion for the comforts of life

Representative Hermann dul his state and the Northwest generally one of those signal services which are worth a whole session of ordinary routing services on the flaor and in the committee room when he saw ind seized the opportunity to bring the Columbia river jetty appropriation to the nouce of the house on Monday This be did by one of those parliamentary flank movements by which members quick enough to see the op portunity for them often accomplish results which equally well intentioned an 1 zealous members perpetually fail to brirg about The committee on rivers and hurbors, of which Hermann is a member has before it a proposition for an emergency appropriation for the Missouri river, that s an appropriation to continue an impor ant work and prevent its deterioration by delay until the regular appropriation becomes available It seems from the statement tel egraphed that the Missouri river work just in the same state of the Columbia river jetty that by reason of the failure of the river and barbor bill last year, the money available is exhausted and that ser ous damare will result to the uncompleted improvement if work is stooped until all. The Missouri river congressmen got the committee to take the matter up and recommend an appropriation of \$7" 000 but Mr Her mann refused to cousent to it until an equal The incident is not only creditable to Mr Hermann's abilities and viguiance but it illustrates the value to a state of baying a

Seattle bricklavers have been on a strike for some days. There is nothing new in the demand upon which they threw cown the trowel and deserted the mortar board. They simply want a full day's pay for a shor day's work and sinff needed contractors do can's work and still necked contractors de cline to accede the terms. The cause of honest labor is not advanced by a demand of this kind. Brick laying may be hard work and at this season of the pear it is doubtless disagreeable work. If men feet that they can not stand the strain of it for that they can not stand the strain of it for ten hours they have a right to say so and to decline to work a full day but they have no right to demand that contractors pay them for the hours which they voluntarily knock off from their regular day's work. The man who cannot get work is a legitima e object of sympathy he who is ground down of sympathy he who is ground down through corporate advantage or greed to a pittance for his labor has just rause for grievance, but the craftsman who com minds and readily receives large rages for an honest day swork poses in vain for the endorsement of honorable men when he re day s pay Buch a demand is no one of justice, but of extortion and it is a whole some thrug for labor itself when if it succe fully resisted since it operates as a check upon the unreasonable and arbitary element that soeks to control trades union aid has too often brought otherwise unde served odium upon them

Judging from the strenuous efforts that hive been made every year since the repeal of the act of 186" which occurred in 1878 to induce congress to pass another bankruptes law the people are exceedingly any ous for legislation upon this especial point Judging however from the promptness with which such laws have heretofore been repealed the people are not easy to pease in the provisions of such a bill. The consti-tution confers the lower on concress to establish uniform laws on the subject of bankruptoies throughout the United States yet so slow has been the lan makin, power to accept responsibil to in this matter that national bankruptcy laws have ex ted but sixteen years during the entire hi tory of government The act of 1800 was repealed n 1803 that of 1841 in 1843 and that of 1867 The object of bankruptcy tiws 1880 simple that it would seem to be a not diffi cuit task to frame one that would establish equity between the deptor and credi or, but

the only construction that we can place upon the record of national legisl tion in this direction is that the object is much more difficult to attain than it appears to be and to release the latter from further obliga tion after he has made open and honorable effort to secure his creditors, as far as the means involved will permit from loss. Like other questions of finance, this is however. a many sided one and the policy of congress in the main has been to let the individual states wrestle with the problem making it a local rather than a national matter the ground of defense for such proceeding being the cortiness of bar krupter laws under fed eral administration which consideration moved the repeal of the law of 1857

Portugal submits to I and Salisbury's de mands in full but under profest being un able to enlist the sympathies of the powers in the matter in dispute. The people not feeling the responsibility that oppresses those in authority in the government are not diposed to yield to the sharp pinch of necessity in the premises quietly and con time to complecte the task of the government by noisy and riccous demonstration against England. The difficence between intelligent at mission and ignorant reast ance to the inevitable is well illustrated in the ven intathinde of the rulers and the subject of Portugal in this stress. It is not that the former are less indignant than the latter over the exhibition of England's proverbial greed in the matter in dispute. They are simply more politic and being are simply more politic and being charged with authority hesitate wisely before a problem 12 push the solution of which accord ing to their own ideas of justice could only result in disaster to the arms of Portugal

Robert Smalls confirmed as collector of customs at Beaufort S C is credited by the Con ederates with having performed a deed of rare nerve shrewdness and courage when colored pilot of the Confederate steamer Planter he ran her away from her stamer Planter he ran her away from her dock at Charleston saluted all the Confeder ate forts in passing and was well on his way to the Union fleet before his purpose was discovered. Had he been caught of course his his ewould have been forfeited, but he took all the desperate chances of discovery and succeeded, and next to Cushing's blowing up the Allemante his questionable whether a the Albemarie, it is questionable whether a more brilliant exploit of individual daring are that anybody that undertakes to mob Smalls for during to become a Federal offi cer of customs at Beaufort S C will not kill an unresisting victim. He is likely to

The great letter writing public is not to be deterred from pursuing its favorite vocation by the trifling fact that mails are blockaded and the letters will if sent forward, be piled up in a snow drift to await the coming of the Chinook Thirty five pouches, each con taining some 30 000 letters stranded in snow banks and watting for transportation com panies to raise the blockade imposed by Boreas tells a formidable story of a people who, having something to say, are not to be deterred by distance or weather from saying it Postoffice employes are cheerful in prospect of the midwinter penic which the de layed mail will give toem when the blockade is raised Of course being faithful public servants they do not object to the fifteen hours a day at their tasks which this load of

It is estimated that between 40 000 and and 50 000 acres are planted in orange trees in California, the product of which during the current year will be over a million boxes. Quick transit and refrigerator cars have been the great factors in the development of the orange lodustry. The fruit being of a nature that does not permit it to compate with other finite through the regular. with other finits through the regula processes of canning and drying is depend out upon quick transportation and careful notelligent handling. Through these the orange groves of California and Florida have been brought close to the great mark ets of the country, and orange production has been stimulated thereby to an enormous growth

In 1886 Mr Moreton Freemen a well known Fughshman was in Po tland and was accustomed to insist that he believed in a free coinage of silver by the United States fle argued that free coinage in the United States would take up the amount of unused silver in bars and ingots floating around the world and then there would be don'th of silver to send to India and consequently rapid rise in the price of silver and with it rapid rise in the prices of cotton and wheat" Under the Windom bill, however, there would be no chance to test this Englishman s heory for it prohibits the government from purchasing the foreign silver floating

Mr Kells, of Kansas wants congress to appropriate \$100 000 for a monument to negro soldiers and sanlors of the late war The most enduring and splendid monnment that congress could erect would be to reduce the representation of those states of the South that have stolen the scats of the lawful representatives of the negroes in congress At the present time when the negro is asking for the bread of equal civil rights and free elections let us not in the spirit of sentimentalism vote him a stone

The story that the Bank of England is about to revive an old privilege and keep one third of its reserve in silver bullion issuing notes against it is interesting any way and important, it true. The Bank of England reserve is only £14 000 000 less than its entire circulation, and the addition of silver by the current would be convented. silver to the currency would be considerable Of course the notes issued like those of th Windom plan would be more certificates of deposit It is not worth while to discuss the story very seriously until it is confirmed

Advices from the Nevada Idaho and Wy oming cattle ranges indicate that the fatal its among stock is going to be very great Conditions are much more favorable in the cattle country of Eastern Oregon, and the losses there will probably not be so considerable but it is a hard winter on the stock raiser everywhere. With the late series of sever, winters on one side and the Coungo dressed beef trust on the other cattle raising has become a precarious business.

The Ean Prencises Chamber of Commerce Frieress L b rol Appropriations for the Great Waterway of the West

ABTO MA Jan 21.—[Special Telegram 1—The chamb rof commerce I cid a meeting last night. A committee was appointed to olient subserptions for forming a joint stock company and erectin, a but id is just it is hardly expecied it at the effort will succeed at present, as everyone who has any spire cash will put it in rad estate rather than into a chamber of commerce building. The most upper funit work before the chamber is the attered clearing I mayigable streams. ing The most important work before the chains her is the latter of cheir robstructions breaking of this matter President J Q A Bowley said benat r Mitchell has promised to secure an appropriation for us as soon as we can make a state ment of the condition of the streams here and a committee is at work on the matter now to may have to wait until a government survey is made to that the probable cost can be ascertained. The streams which need the government writared Doby Gray's Lewis and Charkos Louis, and John Day rivers and the Columb a in the I map a channel and the Westport slough. Then, river is min typide for several miles but the steam ere commot get in over the bar at the mouth except at high water. Inside he bar the stream is pracked by clear the mouth of Gray's river and it is don'tful if reound be removed without considerable expense but mande the far the river is full of the son duage, and any any larger they are danger out. her is the ratter of cient ng ill navigable streams in this leinity of their obstructions breaking of this matter President J. Q. A. Bowley said dangerous and Clarke sand Young's rivers the

In I ewas and Clarke's and Young's rivers the water is deep but there are I any dangerous snags. In the Jol: Day river there is little water and it is of I the commercial interest. In the knappa channel on the route to West port there are two or three bad snags which makes it dangelous for the regular Lorland ste merlan West nort slough between Westport and Wood's landing there is plenty of water, but a great miny legs and snags. All these places are of great commercial value to Astoria as they are all feeders of this place, and their products must come here.

Pacific Arrive Here. TEST AFTER EIGHT DAYS' DELAY From 300 Passengers and Huge Quanti-

ties of Mail Reach Portland. II SPEAR WORDS OF PRAISE

of the Company's Treatment-Great Difficulties That Were Overcome-Floree Storms and Deep Show-The Other Lines.

Railwy communication with the Bast over find the Union Pacific is now established, the line of the Union Pacific is now established. The blocksade is raised, and two long trains leaded by two heavy engines, each came putting into the city in at eyemine. By compact Nos. 22 and the first section, drawn by conjues Nos. 22 and Management Medols and Leach, arrived ex-ectly at he deach. It was composed of nine early at he deach.

the (wo mail care and one work of unl seroes the river, where the work of unl seroes the rosecuted to better advantage, could be prosecuted to better advantage. . AWAITING THE TRAINS.

I WAITING THE TRAITS.

The grounds of the Union Pacific depot prepartial an animated seems soon after 2 o'clock
resterds afternoon. The first scotion of the devasited afternoon. The first scotion of the delayed realist was expected at 2:50, and in nantelstor that it would arrive on time, hackmen and
expressure: were on hand early, in order to get
arounds positions for their vehicles. It seemed
that start hack, bus, coupe and express wagon
that start hack.

that rivin heek, bus, coupe and express, wagon in the steep value of the ground.

The suberpiting drivers, however, were desided to have ample, opportunity for exercising that the having waited, and waited, and waited. Having waited nearly an hour after the rivide about have arrived, they received the remarking and encouraging news that the training and encouraging news that the training and encouraging news that the training and encouraging news. That it is the training and encouraging news. That it is the training and encouraging news. That it is the training and encouraging news.

the inda would arrive at 4 o'clock! then it was an indaw of 5.20. The latter hour proved to be moved the mark, as the weary waiters were re-boys the mark, as the weary waiters were re-wasted for likely patience when the clock; struck is, The passengers looked tired and travel worn, and less no time in making their way to the bealth arrive were, no doubt, glad to bid, farewell to the tedlum of a blockade, as their looks indicated that they folf a sense of relied. Amour the passengers on the first section were want United Blates troops, under command of Lieutenant Johnson, of the Fourteenth infantry, stationed at Davis Island, New York. Notwithmodies the fact that they had been on the road flies dois they appeared to be as jolly a set of roans man as ever seen. One of their number (there being trently-one when they started,) unfortunately full from the train in Jersey City and wait like! They have been transferred from party laisned to Vancouver burracks, for which leace they will eave this morning on the steamer in a Thompson.

The second sebtion, according to reports sent cret the wires, was to arrive at 6:30, but there was appetition of the provious delays, and it was erer an hour later when it pulled up to the depot. Tery coach in both trains was crowded, and its estimated that fully 300 passengers arrived. Depot Master T. B. McDevitt stated that about 180 people. Including the 

All of the Eastern mall due in this city up to the Eth mired on the section yesterday evening due of the postal clerks stated that stem was high ten tone of it. At any rate seven of the impact up to the host of the tany rate seven of the impact up to the of it. At any rate seven of the impact up to the of it. At any rate seven of the impact up to the of it. At any rate seven was lossed with its many pouches as could be pleter, and at least two large wagon loads were manifered direct to the Southern Pacific mail rare hear forthand. A large portion of the letter sill, was already sorted, and what was not well was already sorted, and what was not well was already sorted, and what year not have in the forth of the first delivery. The large force of clerks worked hard all night. As alrea is no particular rush with the papers, they will, not be, delivered until all the letters are necked off. The optibil, in the meantime, will EASTERN MAIL IS HERE. all, not be delivered until all the receiver will so the condition of the public in the meantime, will be exercise exercise a little pationee. Everything

an not be done at once.

All Eastern mail that should have reached Porthad after the 18th, including that of yesterday, will arrive some time this morning. CALIFORNIA MAILS

CALIFORNIA WALLS.

Chief Clerk Henry, of the rultway mult service, risied last evening that arrangements have been made with the Southern Pacific stemmers to carry California and Oregon and Northwestern mail tatil the blookade in the Sukryous is raised. He secondagly realited all California mail that has gone as far as Ahland, and will send the first market by the stemmer State of California sailwhich leaves an Francisco to-duy, will bring all mail for Oregon, Washington, Montana, Idaho and Brittle Collimbia. All Gregon mall, which had left San Francisco by rail, has also been hain. This train is between two blockades in the Saltyou mountains, and consequently no com-make their with it can be had. Colonel Crocker, who is on his way to Portland, is one of the that reached San Francisco, left here on the 12th, and the last from Ban Francisco arrived here on the 18th

SEVERAL PASSENGERS INTERVIEWED.

No spoose had the first of the hig trains come to and the Union Pacific depotlast evening at 30 floot; than the very weary, though much relieved looking passengers, came pouring with heavy ripe from the many coaches.

After the build, consequent upon the arrival of the first through train for a week had somewhat unbeined, a reporter interviewed a few of the passenger and in the leight days of blockinds.

Mr. Walter Hobbs, who left Boston two weeks 80, and who was just eight days in Raker City. having arrived at that piece Monday morning a West ago it Rackelor, and e was selli another train at Baker City.

week ago at 5 o'clock, anid:

"There was athi another train at Baker City, when ours arrived, it having pulled in the day before. The railway officials did all they could for file out of the control of course, we could find a good many things to complain of, were we trying to file did and, and there were, I am sarry to ent, a few such passengers aboard. They not only made the did and and there were, I am sarry to ent, a few such passengers aboard. They not only made themselves misemble, but finded a good many olben disconnented. The officers of the train did storything in their power to make it pleasant and comfortable for us. We were turnished with fire and lights, and spent the time walking about the fown reading, playing cards, telling yam; and sleeping. The Arlington hotel was opened for our accommodation by the railroad company. The meals, though not the finest to be had, were substantial and adequate for all de mands. A good many of us who happened to have allithe exits money handy preferred the hards allithe exits money handy preferred the firm of the pregast is culted."

At the Inhernational hotel, a gentleman named is, ilispand, also one of the passengers, said:

"I think that the railroad did all that they possible out. It was in their power to have tracted ma great deal worse, were they so included. A few people kicked, but kickers can be found in every place. The food was substantial and no one was hungry. I am glad that they possible of the passengers."

"At the inhernational hotel, a gentleman named is and no one was hungry. I am glad that they possible of the passengers and their power to have tracted all in their power for the necommodative to the passengers."

"At the inhernation of the passengers, and there were we wise to several weeks yet. I think the Union the of their passengers."

"At the inher passengers."

were for several weeks yet. I think the Union Recibed all is their passengers."

Mr. Kher B. Grane, from 45 Brosaway, New More, a well-known gentlemen in railway circles, which is well-known gentlemen in railway circles. These several are locked and unlocked by means of a lever at one end of the long row of cells, which throws one of off at one movement the bolts of all the passengers who held second-class tickets of course were to the Arlington hole. The accommodation of the Pullman passensers which is discond-class tickets of course went to the Arlington hole. The major of the city, the shorlif, the countains of the city in carriages. We enjoyed and showed us every hospitality. We were driven to be of which are known only to the passengers and three, it is the passengers and three, it believe died. One the order does not t

fatal attack of the influenza, and the third, I understand, was an old Grand Army man. The sixty patients were well cared for by the railroad's physicians. Most of those who were sick were unwell before they came about the train, and the altitude of Baker City being so unusually high, and the passengers being forced to drink the alkall water, was enough to make anyone not elimated, liable to sickness. A good many would stay in their coaches from morning till night and the porters would never have a charce to clean the cars out, much less give them a good airing, and it is only a wonder that more were not sick.

that more were not sick.

I have seen many blockades, and some pretty bad ones in my time, but mone as hard to break up as this one. I don't believe half the passengers, or anyone of the ontside, have the remotest dides of the immense quentity of snow between Pendleton and La Grando. For mites the snow was ten feet higher than the coaches on either side. Some delay lwas occasioned last Sunday to one of the rotary snow slows by the plow running into a cow, which was buried in the snow. The animal was hearly of ewed up, and the fans in the plow were slogged.

THE OUTLOOK. Should no further storms occur, Eastern travel will be resumed and trains will soon again be running on time. The blockades have been among the worst that have ever been encountered as for nearly nine days all Eastern traffic and travel has been suspended. The Union Pacific company have made every endeavor to raise the

It is stated by some of the passengers, who took places, the drifts were packed so hard that the rotary plow cut a track list wide enough for the rotary plow out a track just wide enough for the train to pass through narrow cuts in the mountains, and only ordinary snow plows were used, the snow is packed as hard as stone on each side of the track, and if any more snow should fall the plows would not be a bit to get it out of the way. Another storm would again fill up the cuts, and a blockade that would be more difficult to raise would be the result. No one, however, looks for such a visitation.

TWO SECTIONS TO ARRIVE TO DAY. The third section of the delayed Union Pacific trains is expected to arrive here about 6 o'clock this morning and a fourth section at 9 o'clock. It is doubtful, though, whether either train will arrive on, time. The inject advices from the road are to the effect that the track is again heavy. The light snow which began falling at an early hour last evening makes the track very allippery, and the trains are bound to lose time. Both trains will bring mail.

LATEST FROM THE BAST.

Late instevening the fe lowing dispatch was received from La Grande, O::

The railroad is now open on the mountain division, and trains are now making very good time. All the delayed passengers and trains have been started out, and fright trains start to-night, the first since the blockade. The snow-plow from Pocatello is in:the shops being repaired, and will be ready for any emergency. Though further storms are not expected, still: It might come handy. The delayed passengers were loud in their praise of the comp up for the kindly treatment shown them. Succide attention will now be given to transporting delayed stock and perishable freight. AT PENDLETON.

The following dispatch from Pendicton last night will indicate the condition of affairs:

Affairs of the railroads are much improved, and order is fact working out of chase. This afternoon three trains came straggling into Pendicton from the East, bearing a large number of passengers and delayed mails. The first arrived at 3:30 and the others came in at intervals of a few hours. A snowplow from Omaha reached La Grande at 4 o'clock yesterday afternoon, and the snowbound trains followed in its wake. A passenger blockaded in Baker City, not content to remain there, chartered a steigh at an expense of \$175, and arrived in Pendicton last night. He purchased a telest via the Hunt line to Tacoma.

ing made in the large drifts and slides, and it is not thought possible that the trank can be cleared before next Sunday.
Superintendent Hayes, it the Postal, last evening received the following dispatch from Ashland:
Mothing has been heard lately at Sime from the rollef train which met with a delay lost night from a slide whom on its way north from Deffn. No. 16, the smowbound passenger train, is about to start on its return trip to Redding. The snow plow between Durammir and Sime has been abandoned for the present, and the engines added to the force working between Duramirand Bissons. Outside of this the sixtual or remains practically the same as this morning.

orther Pacific arrived practically on time yesterday, and reports from Helena and El-lensburgh are to the effect that all trains, freight and passenger, are moving on schedule time. WEATHER DULLETINS.

WEATHER DULLETING.

"POR OF SUCH IS THE KINGDOM." Monthly Meeting of the Kindergarten Directors-

The regular monthly meeting of the board of managers of the Portland Free Kindesgarten As-sociation, was held at the patients of the Young Men's 'Christian Association yesterday afternoon at three o'clock. There was a large attendance. The minutes of the last meeting were read and

at three o'clock. There was a large attendance. The minutes of the last meeting were read and approved.

The treasurer's report was then presented, showing an anaum of each on hand, \$502. A donation of \$20 55 was received from the 'King's Daughtera.' This is a society composed of little girls, formed for the purpose of benevolent work. Just before the holidays they gave a fair and dramatic entertainmen: at Mrs. Brazer's, and this donation to the kindergarten is the result of that entertainmen.

A resolution was based expressing the thanks of the society has been deep report was presented, who wing that there are at the present time about 185 pupils in attendance upon the sencois. Christimas exercises were hel int all the different kindergartens, in which the children took great interest. By the generoity of Messrs, Bernheim & Manner, the Albsky Candy Co., and Mr. Swetland, each child was provided with a package of candy at the Christimas exercises.

It was resolved to establish an additional kindergarten, which will probably be opened at the Seemen's Bethel chapel. This is a step that the society has been desiring to take for a long time, but have been detored by want of mads. The number of children in that portion of the city which greatly nead the sindergarten is large and rapidly increasing. The donation made by the King's Baughters will are almost and will make four schools being now conducted by the association. The monthly billie on each and will make four schools being now conducted by the association.

CHANGES AT THE COURTHOUSE. The Excellent Arrangements of the New Jail-New County Courtroom-Etc.

Nr. J. N. James, the county's new and popular jailer, showed a reporter through the new jail yesterday afternoon. The improvement upon the old quarters in respect to convenience of appointments and sanitary condition is wonderful. There is a corridor extending clear around the cella. These are provided with bath tub, sink and water closets. The steam heating apparatus is now working very astisfactorily, and the basement is well lighted and ventilated. The cells are looked and unlocked by means of a lever at one end of the long row of cells, which throws on or off at one movement the bolts of all the doors. One very heavily ironed cell is in the front, whose massive bolts are worked by a separate pully and crank. These levers and cranks are all encased in an iron chamber, which is closed by a combination tumbler lock, the numbers of which are known only to the jailer. Between the old and new sants are the appartments for women and boys.

The coast half of the main cells are now occupied by the prisoners who were taken from the north corridor. The other part is now all ready for occupancy, and this morning the prisoners from the north wing and south corridors will be moved.

county commissioners, who have practically de-cided to make a substantial improvement. The hope is expressed in many quarters that they will ronew tha walls, which are quite unsound. This could be done by the use of temporary supports to could be done by the use of temporary supports to sustain the superstructure while the new walls were being put in. There is a decay and dampness about the old jail which gives off a very noxious eder to the ucustairs departments. The renewing, therefore, should, from a sanitary point of view, be thorough. The workers in the courthouse have been affected to a great extent with the prevalent influenza. A viery large proportion of the courthouse employes, have been sick, and in many cases malaria and felver have been quite severe. There will probably be from lining put in ever the walls, at least, if no more radical measure that the support of the severe walls, at least, if no more radical measures. ures are decided on. The high rate fixed by the state for taxes has been unquestionably operative in preventing the county board from making pro-

Judge Catlin moved into his spite of rooms in the new wing of the court house. Facing as the rooms do, on Main and Fourth streets, they are the pleasantest in the building. The courtroom proper is furnished with souts, desks, etc., and he judge's private office is larger, more light and alry than he has had before. The finish and fur-niture are bright and attractive, and nobedy deserves such pleasant quarters any more than the hard-working judge and his obliging bailif, Mr. Buckenmeyer.

The quarters thus vacated by the county court

are being rearranged for County Superintendent Wetzell, who will thus have two rooms instead of

THE REWARD OF KINDNESS. M. Dee Befriends Ed. Christall, Only to Be Robbed by Him.

M. Dee, of the Thri Exchange, has about cometo the conclusion that he did not entertain an
angel unawares, when he befriended Ed.
Christall, the solf-styled wreather, in the sarly
part of last Décember. Christall was in
desittute direumstances, and presuming somewhat on Mr. Dee's characteristic friendlines
to those in hard luck, asked him if he could work
for his board. Mr. Dee took him that he sould for his board. Mr. Dee told him that he could not, but that he would employ him at a good salnot, but that he would employ him at a good salary providing he (Christall) proved satisfactory and trustworthy. Christall accordingly went to work in the capacity of porter, and apparently was honest and attentive to his duties at all times.

Mr. Dee went to Astoria about the 9th of the month, and, when he returned everyal days later, he missed field worth of lowelry. He never such pected Christall. A few days age to me Detail the pected the first in the returned everyal days later, he missed field worth of lowelry. He never such the process of the days of the month of the days and though the wished to avoid his employer, but Dee took him by the arm and asked him where he was going. As he took hold of Christall he noticed that the latter was wearing his coat, and upon closer in spection, he recognized his own coat, west, pants, mostite, and in fact, his entire outfit, Christall had no explanation to give, and accordingly was placed under arrest soon after. Mr. Dee is of the opinion that he stole his jewelry and accordingly was placed that Christall lie an exception of the opinion that he stole his jewelry and accordingly served a term at San Quentin only a short time before he came to Portund.

THERE MUST BE A WINNER.

THE REVIVAL AT ST. PAUL'S. Evangelist Weber Discourses on the Question of

Personal Salvation-The service began promptly at 7:50 last evening with a crowded house. Mr. Weber, the evangellst, spoke with great feeling and power. Rove. Kummer, Kellerman, Judy and Cline were on the platform

mer, Kellerman, Judy and Cline were on the platform.

Dr. Kummer led in preyer. The singing led by
Mr. Weber himself and joined in by the whole
audience, was with spirit and power.

Mr. Weber started out in his sermon by saking
the quastion, "Are You Saved"? Bonce say, "I
hope so." No man would be satisfied with hear,
ng his-wife say, "Hasband I hope I love you."
Men of tenge and genuine affections want better
assurance than that.

"Well, brother, if you are saved you will, if you
have not already done so, restore that money you
stole through misrepresentation, and you that
have run away from the East from your meanness
will make things right specific. It in the
our Father in heaven would muck his following
writing your names in the Book of Life? I think
lock.

not."

The call for those who wanted to be saved was made and twenty-five or thirty rose to their feet.

Bervices this evening at 7:50.

NEWSY PARAGRAPHS.

now entertained that he will be able to occupy his pulpit, at least once, on the first Sunday of Feb ruary.

The county commissioners began work yester day upon the new infringument of voting pre-cincts. A number of new polling places will be provided for.

Articles have been filed incorporating the Porland, Seltwood & Milwaukie Indiread Company, by R. F. Smith, Joseph Paquet and A. W. Lamberr, with a capital stock of \$80,000.

TWO IMPORTANT MERTINGS. The Common council, will meet as a committee of nine at 7 o'clack this evening to consider the various applications for street railway franchises pending. Among these will probably come up the blanket ordinance. It is expected that there will blanket ordinance. manket orannane. At he expected that there will be some plain talking done, and there is sure to be some ornamental oratory. The public are invited to be present. Admission free. N. E. No collection taken.

vited to be present collection taken.

A call has been issued for a meeting of the members of the Real Estate Exchange at 3 o'ctock this atternoon to take some action in regard to the "blanket ordinance" saking for street milysty "blanket ordinance searing to street such a franchisen on some 15 miles of streets, which is probably to come up for consideration by the council in committee this evening. As this is p council in committee this evening. As this is p matter of great importance the business commi-nity is invited to attend the meeting and express their views on the matter.

SICKEESS AND DEATH.

The advantage of the Turkish bath caunce The advantage of the Turkish bath cannot he too highly estimated, nor too after pointed out. Our axias become clogged, and by degrees, as we get older, the accumulation of the stucce increases, becoming daily and hourly more and more impervious, until at length we get crusted over with a substance almost similar to Roman cement. If the state of the skin were well abouted to those herrid coimplaints, the gout, then reatism, neuralism, neuralism, neuralism, neuralism, and the apopted stroke, and the annoying visitation of coids would no longer afflict us, besides a thought would cones to be. Let's trial follow. Hummans baths, 48 second street, corner of Ach. Gents, 12 noon to 12 midnight; Sandays, 6 to 12, noon.

RE GOT THERE.

A bulky horse laid down in our streets the other day. Did the driver get mad and hammir-the sulles brute, hold his nose or put a handiri-of gravel in his ear? Not he. He simply leaned of gravel in his ear! Not he. He samply leaded over and whileperde confidently in Dobbin's seiz, when the old neg was up and off in an instant, never stopping until he publied up at the north-gast corner of First and Alder. All he said to the bally horse was: "I hear they are selling some mighty fine lois in the Railway addition to Astoric at half their actual value, at room 16, norther act corner First and Alder." This is a fact, by the way—about the lots, we mean.

Northern Pacific Railroad. Tourist sleeping cars daily between Forbland and Chicago. Twenty-five miles the shortest route and seven hours and thirty, six minutes in advance of competing lines. Call at 121 First street. corner. Washington. Custom House Statistics

Ehow that 2,454,604 cases of champingue were imported during the last decade, of which ever one-fourth was "G. H. Mimm's Extra Dry." Their importation during that period was over 200,000 cases more than any other branch indicating the

popularity.

Elegant new dining cars, Pullman palace and free family sleeping cars run through on express trains to Denyer, Omaha, Council Bluffs, Kausas City, St. Louis and Chicago, via Union Pacific railway. G. S. Taylor, city ticket agent, St First street, corner Oak,

Boy one years and a half old. Face and body in a terrible condition, being cov-ered with sores. Sulphur Springs fail. Cured by Cuticura Remedies.

Cured by Cuticura

I have used your CUTICURA REMEDIES in two cases where it proved to be successful. The first was in the case of a boy a year and a half old. His face and body were in sterrible condition, the former being completely covered with sores. I took him to the Masstan Sulphou Springs, but he did not improve any. I was then advised to try the CUTICURA REMEITES, which idld. He took one and one-half bottless of CUTICURA REMOVERT, when his skim was as smooth as could be, and is to-day. I used the CUTICURA to his could be, and is to-day. I used the CUTICURA on his sores and the CUTICURA SOAF in washing him. He is now five years of age and all right. The other oase washing with the CUTICURA SOAF and rubbing in the CUTICURA, one bottle of butcura Resouvers being need. They have preved successful in every case it is surprising how rupidly a child will improve under their treatmen. oir treatmen.
JOHN R. BERO, Hogansburgh, N. Y.
